

Colleen Wright Biography

Colleen Wright is the Vice President of Strategy and Growth for Constellation. Wright is responsible for the development of the enterprise strategy at Constellation, the nation's largest producer of carbon-free energy and the leading competitive supplier of energy products and services to 2 million homes and businesses across the United States. In this role, Wright also advances new technologies, policies, and business model transformations through partnerships, grants and research and development.

Prior to this role, Wright worked at Exelon as Director of Corporate Strategy; Chief of Staff to Exelon's Chief Strategy Officer; and held roles in Government Regulatory Affairs and Public Policy. Wright joined Exelon from the Federal Energy

Regulatory Commission where she worked as an economist and policy advisor to Commissioner Cheryl LaFleur. Wright has an MBA from George Washington University and a Bachelor's degree in economics from the University of Richmond.

Wright serves on the Advisory Council for Argonne's Chain Reaction Innovations, the Advisory Board for Maryland Energy Innovation Institute and the Board for the Illinois Science and Technology Coalition.
